

In just 6 hours this summer, learn strategies for a smooth transition to college

Your first year of college! Finally on your own and independent – an exhilarating experience for all of us. You will start with a clean slate and have the power to make your own critical decisions, but are you prepared?

Because the quality of your first year affects your entire college experience, why not learn the tools you'll need for a successful transition from high school to college?

The Center for Educational Services is offering a **Summer Study Skills Program**. Groups will meet weekly in July for 90 minutes per session. In four weeks, you will learn specific skills needed for your success in college.

We will cover organizational, study, and time management skills; plus, we'll help you identify your strengths so you can enter college relaxed, optimistic and confident that you can cope successfully with the demands of college life.

For more information and to enroll, please call Dr. Eve Prensky at 610-642-4056.

Groups now forming

Fee: \$500
